## DAILY CLEANING PROCEDURES

**CAUTION:**  
Beware of sharp  
edges with sheet  
metal during cleaning process.

1. Thoroughly clean rack or cabinet prior to initial use.
2. To clean cabinet regularly, use the following procedure:
  - A. Pressure (steam) cleaning is recommended for all cabinets to remove soil and grease deposits. Mild cleaning additives may be added, depending on the nature of the soil or grease. A solution of two tablespoons of baking soda per quart of warm water is sufficient for most cleaning jobs. Mild soap or detergent may be used for heavily soiled interiors. **DO NOT** use strong detergents, ammonia solutions or abrasive cleaners. Do not use steel wool pads—ferrous deposits will cause rusting
  - B. After pressure cleaning, rinse thoroughly with clear water.
  - C. The unit may be further sanitized by wiping with a solution of 1 to 2 tablespoons of 5.25% sodium hypochlorite (household strength laundry bleach) per quart of water.
  - D. Wipe dry with a clean soft cloth.

**CAUTION:**  
Do not use strong detergents, alkalis, ammonia solutions or abrasive cleaners. Use only cleaning agents approved for aluminum and only in the recommended manufacturer's concentration. Do not use steel wool pads—ferrous deposits will cause rusting.

Use of cleaning agents that are not recommended for aluminum may cause permanent damage to the cabinet. **THIS DAMAGE IS PERMANENT, COSTLY TO REPAIR AND IS NOT COVERED BY THE WARRANTY.**

## MAINTENANCE

### CAUTION:

Do not move cabinet unless door is securely closed. Serious damage to hinges and door may result if bumped into tables, walls, or other equipment when the doors are open.

### CASTERS

Some cabinets may have caster bearings that are equipped with Zerk grease fittings so that they may be easily lubricated with a grease gun. Lubricate bearings at least once every six months.

### HINGE MAINTENANCE

Make sure all joints remain sealed and door latches do not stick. If necessary, use WD-40 to keep door latches from sticking. Do not use oil.

### BUMPER MAINTENANCE

Queen Mary transport carts have a wrap-around bumper with grey vinyl insert. If vinyl insert starts to come out of the bumper frame, simply pry it back into place with a flat-head screwdriver.
